

Teen Social Messenger Happenings

Making Conversation and Making Friends

Does your teen have a hard time handling social situations or has a hard time making friends and engaging in meaningful conversation? Is keeping friends a challenge?

Some teens have difficulty picking up on social cues and understanding the perspectives of others. Knowing how someone might react to something that we say or do makes it a struggle to start or engage in a conversation!

Goal: To increase understanding of how to navigate through various social situations occurring in daily life and to better communicate and socialize with peers and others.

Objectives: A group for teens to build successful social skills!

1. Understand appropriate group roles in order to complete group tasks.
2. Learn what factors contribute to a healthy friendship.
3. Be able to identify various components of successful communication and socializing.
4. Discuss and build on engaging in spontaneous, age-appropriate conversations.

Preregistration Required: contact Integrative Psyche at 414-545-4430 or by email: integrativepsychgroups@gmail.com

Cost: \$245 for the 5-week program
